TECHNICAL SKILLS

- HTML
- CSS
- JavaScript
- React.js
- Node.js
- Sassy CSS

Education

Kenzie Academy March 2020 - October 2020

Learned and applied skills in HTML, CSS,

JavaScript, React, and Node.js.

The most interesting day was a Zoom call with

Andrew Yang, a friend of the CEO of Kenzie Academy Chok Ooi!

Work Experience

Amazon December 2016 - PRESENT

Amazon Associate

Amazon paid for me to attend Kenzie Academy

PROJECTS

A link to all Projects HERE!

SUPER-BOOK

● A React/node.js mock twitter application, using Axios API and Heroku server!

● My only team projects my role was implementing style, the post message component, liking and un-liking a post, changing the profile picture, and deploying the app to Heroku.

SPORTS GAME

● This is a React, Node.js app where multiple teams "shoot" for points. Chances of success are random; it displays a percentage of shots as well as a scoreboard!

Find and Replace

● This program searches for and replaces information from a pre-existing data table! built with HTML, CSS, and JavaScript!

Dice-Roller

● A simple dice-rolling application built with html5, Sassy CSS, and JavaScript, roll various sided die for
